**Important Health Warning About Playing Video Games**

**Photosensitive seizures**
A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

**THE DIRT TOUR**

**DC COMPOUND**

A driving nirvana for you to sharpen your skills or simply cut loose and have a little fun. Read more on page 4.

**WORLD TOURS**

Once you’ve proved yourself as a driver, the World Tours let you compete in each discipline at the absolute highest level.
When the people at DC Shoes found that the old PowerStation at Battersea in London was up for sale, they couldn’t think of a better place to create the ultimate automotive playground. It’s being renovated in three stages but the plans below should give you an idea of some of the exciting locations and tricks that the guys have got in store for you.

THE DC COMPOUND

THE PARKING LOT
The tarmac is fast and the jumps are high. Practice high speed drifting, donuts and spins, and don’t miss the awesome four-way crossover jump!

THE DEPOT
This former container yard offers plenty of high speed driving at ground level and technical driving on top of the containers. Also the warehouse is great for laying down rubber.

THE POWER STATION
Inside, you’ll find a huge full-pipe on the ground floor, with scaffolding platforms and jumps towering above. Outside there’s a mostly dirt surface and an insane two-way corkscrew jump!

DC MISSIONS
To keep you on your toes there’s a load of DC Missions for you to complete around the Compound too. Pause your singleplayer Compound session at any time to check the Mission list and see where you should head next. Look out for the Hidden Packages too; collecting all of these will be no easy task!

MULTIPLAYER JOYRIDE
If you want to explore the Compound with friends, just set up a multiplayer JAM SESSION and choose JOYRIDE as the discipline type.

GYMKHANA

Gymkhana is the freshest, newest, most exciting discipline around. It’s creative, it’s bright and it’s all about precision driving and putting on an amazing show for the crowd. Gymkhana is the stadium-based gymkhana variant. Freestyle arenas contain a number of color-coded trick objects, with drivers competing to pull off tricks quickly and skillfully to score maximum points.

FREESTYLE!
Freestyle Gymkhana is the stadium-based gymkhana variant. Freestyle arenas contain a number of color-coded trick objects, with drivers competing to pull off tricks quickly and skillfully to score maximum points.

TRICK METER - The three triangles around the edge show you how well you performed a trick. One triangle means it was good, two means it was great and three means it was awesome!

CROWD MULTIPLIER - Keeping the crowd interested will multiply your trick scores by up to 3x. Fill up the central triangle by pulling off tricks quickly, but slow down or crash your car and the crowd will lose interest!

MIX IT UP! - Repeatedly hitting the same trick will see the crowd get less and less excited by it. Make sure you mix things up to keep your routine fresh and avoid tricks being marked as Stale!

SPIN ZONES
Get into the zone and spin as fast as you can.

SMASH BLOCKS
Smash the blocks as you drive between tricks.

JUMPS
Jump as far as you can off the ramp.

DRIFT GATES
Go fast and sideways between the posts or through the archways to score maximum points.

DONUTS
Spin around the object with your car sideways and as close to the center as you dare!

TRICKSTEER
Having trouble with your spins? Turn on the Tricksteer assist in the Service Area before any Gymkhana event and this should help you keep things under control. You can also choose to show guidance lines on the ground.
