### Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause "photosensitive epileptic seizures" while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.**

Parents, watch for or ask children about these symptoms— children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

# CHARACTERS

There are five playable characters in Turbo: Super Stunt Squad. Each represent a different type of Stunt Racer:

## TURBO

**Turbo** is like a race car — fast and nimble. His special ability is the “Tuck and Roll” where he ducks into his shell and rolls extra fast.

## WHIPLASH

**Whiplash** is like a muscle car. He’s big, fast, and loud. His special ability is the powerful smoky burnout.

## SMOOVE MOVE

**Smoove Move** is like a cool custom cruiser. He’s not the quickest or fastest, but he’s well rounded and does it all with style. His special ability is the Hydro Bounce — a super high jump.

## BURN

**Burn** is like a high-performance import car. Her handling is amazing — she can turn circles around the competition. Her special ability is her drift boost.

## SKIDMARK

**Skidmark** is like a funny car dragster. He has amazing acceleration, but isn’t so good in the corners. His special ability is a powerful nitro boost.

# GAME MODES

There are 2 types of Game Modes in Turbo: Super Stunt Squad.

**Timed Mode** has a set time limit in which to complete objectives. Each level will begin with a list of objectives. Completing some objectives will unlock additional objectives.

**Free Play Mode** will have no time limit so you can have the opportunity to explore the level and perform all your favorite stunts without any time constraints.

Note: Free Play Mode will be unlocked for each level by completing some objectives within Timed Mode.

- 5. Special Meter:** You can use Special Abilities or perform Special Tricks when this meter is full. Fill it by tricking.
- 6. Combo Meter:** This shows how much time is left to pull another trick and keep your combo going. The number in the middle is the score multiplier for the current trick.
- 7. Point Scored:** This displays the points earned for executing the tricks.
- 8. Combo Trick Display:** Shows the player the current chain of tricks they have pulled off. Only tricks pulled off consecutively in an active combo will be displayed here. The combo can come to an end through a wipe out or by the combo timer expiring.

- 10. Current Music Selection:** This displays the name of the current song.
- 11. Balance Meter:** This appears when you are doing a wheelie / nosey or a slide.

# ABILITIES

Each character will start with a baseline set of abilities that can be upgraded. These will be based on the five following attributes:

**Speed**  
How fast your racer can go.

**Tricking**  
How quickly your racer can do tricks.

**Jumping**  
How high your racer can jump.

**Special Ability**  
The amount of special ability the racer has.

**Handling**  
How well your racer can turn.

# STUNTS AND TRICKS

**Turbo:** Super Stunt Squad has tons of Stunts and Tricks! Landing is the final and key part of pulling off a cool move or stunt. With a bad landing, you may not get the best score for the stunt or you may even wipe out!

# COMBO SYSTEM

**Turbo:** Super Stunt Squad has a combo system that allows you to create a combo by performing another trick before the combo timer expires to get the big points.

**Bonus Points:** Earn higher scores by doing multiple stunts in a row!

**Hot Spots:** Crossing or finding a Hot Spot can also add to your score.

Try different combinations of stunts to find your favorites! Be careful not to wipe out or your combo will end.

# SAVING YOUR GAME

**Saving is done automatically. Please do not turn off the system or quit the game while this icon is displayed!**
