SAVING AND LOADING DATA

Game data is automatically saved after a fight in Story mode, when game settings are changed, etc. The data will be loaded automatically when the game is started.

At least 400 KB of free space is required to save data.

STORY MODE

1. In Story mode, you can progress through the story while fighting with different characters. The unlocked chapters for each character can be viewed on the Timeline: the vertical axis shows the point of time within the story, and the horizontal axis shows the playable character for each episode.

2. Win the fights in each episode to progress to the next part of the story.

Press START during a movie or fight to access the Pause Menu.

If you quit Story mode during a fight, you will restart next time after the last fight you won.

Purchasing DLC

Purchasing DLC requires a connection to PlayStation®Store. For details, please visit the PSN™ page on the PlayStation® Official Website: http://us.playstation.com/psn/
GAME SCREEN

HEALTH GAUGE
This shows your character’s remaining health. It decreases when your character takes damage. Your character is K.O.’d when your health reaches zero. A red frame appears when the gauge falls below 50%. Power Blows and Power Launchers can be performed when this frame is displayed.

The red portion shows how much damage was taken from your opponent’s hit.

K.O. COUNT
One bubble is filled for each round won. The first player to get all three bubbles filled wins the match.

TIMER
Counts down the remaining time for the round. If the timer reaches zero, the round ends and the player with the most health wins.

STATUS
The number of combo hits, the character’s state, and other information is displayed here.

The basic fighting system is comprised of strikes (punches and kicks), throws, and holds. Strikes beat throws, throws beat holds, and holds beat strikes.

**COMMAND ICONS**

The following icons are used in the Move List, Command List, and in this manual:
* The character is assumed to be facing right. Please use the opposite directional controls when the character is facing left.
* These controls are for the Type A controller settings. Button assignments can be changed in the Options menu under Controller Settings.

- **H**: Hold down the button
- **X**: Tap the directional pad or the left stick in the direction of the arrow.
- **P + K**: Hold the directional pad or the left stick in the direction of the arrow.

The following icons are used in the Move List, Command List, and in this manual:
MOVE HEIGHT

Includes many fast moves, but can be avoided with a standing guard or by crouching. These moves are marked by ¤.

Can hit crouching opponents. These moves are marked by ¡.

These moves are slower, but cannot be blocked with a standing guard. These moves are marked by ¡.

MOVE LIST

The Move List at the bottom of the screen displays a list of moves that can be performed from the current move. A move will light up when it has been performed. Press START and select “FIGHT SCREEN INFO” from the pause menu to set the display for the Move List, etc.

- Special action (SP)
- Offensive Hold (OH)
- Critical Burst move (CB)
- Power Blow (PB)
- Power Launcher (PL)
- High (etc.)
- Mid (etc.)
- Low (etc.)

Push in the left stick to lock the currently displayed Move List.
**ACTIONS**

**RUN**

Makes the character run.

**SIDE STEP**

Move quickly to the side to dodge an attack (some attacks cannot be dodged). A strike or throw becomes a Counter when it hits a side stepping opponent. Controls can be changed in the Options menu.

**PUNCH**

Strikes using the hand. Combine them with the directional pad or left stick for a variety of moves. Strikes beat throws and can be blocked by guarding.

**KICK**

Strikes using the foot. Combine them with the directional pad or left stick for a variety of moves. Strikes beat throws and can be blocked by guarding.

**GUARD**

- **STANDING GUARD**
  Blocks high and mid strikes. Does not block low strikes.

- **CROUCHING GUARD**
  Blocks low strikes. Does not block crouching throws.
THROW

**STANDING THROW**

These throws are effective against opponents who are standing, moving, or in standing guard. They lose to strikes. Combine them with the directional pad or left stick for stronger moves.

**CROUCHING THROW**

These throws are effective against opponents who are crouching, moving while crouching, or in crouching guard. They lose to strikes.

**THROW ESCAPE**

Normal throws can be evaded by pressing as soon as the character is grabbed.

**COMBO THROW**

A chain of multiple throws. Other commands can be entered when is displayed. At this time, the character being thrown can also press at the right time to escape the throw.
HOLD

Grab and counter your opponent’s attack. Holds beat strikes of the same height, and lose to throws. When **combo hold** is displayed, additional commands can be entered for a combo hold. At this time, the character being held can also press H or T at the right time to escape the hold.

* Some characters have special character-specific holds.

**HIGH HOLD**
Against a high strike ➡️

**LOW HOLD**
Against a low strike ➡️

**MID PUNCH HOLD**
Against a mid punch ➡️

**MID KICK HOLD**
Against a mid kick ➡️

**OFFENSIVE HOLD (OH)**

These holds actively grab the opponent like a throw and are only available to some characters. A strike will not count as a Hi Counter against an opponent doing an OH. An OH will become a Counter Hold against an opponent doing a hold or OH.

When you hold an opponent’s strike, the hold becomes a Counter or Hi Counter and causes extra damage.
GROUND ATTACK

**HEAVY GROUND ATTACK**

Hit a character who has been knocked down.

**LIGHT GROUND ATTACK**

Hit a character who has been knocked down. Commands vary by character.

**TECH ROLL**

H / P / K before being knocked down

Get back up quickly without being completely knocked down. Push the directional pad or the left stick at the same time to get up in a certain direction.

RISING KICK

**MID RISING KICK**

If you are not able to tech roll before being knocked down, get back up with H / P / K. Do a mid kick while getting up.

**LOW RISING KICK**

Do a low kick while getting up.
CRITICAL STUN

Certain strikes can put the opponent in Critical Stun, leaving them unable to do anything but hold.
* Mash the directional pad to shorten the duration of the stagger.
* Some moves cause a powerful Critical Stun which does not allow the opponent to hold.

CRITICAL BURST

Leaves opponents temporarily unable to move or react.

1. Use a special strike to put the opponent in Critical Stun.
2. Keep the damage going so that the white part of the opponent’s health bar goes down as far as possible.
3. When the "CRITICAL STUN" status turns red, use a special strike to cause a Critical Burst.
4. Critical Bursts are a great chance for a Power Blow!
COUNTER

When you hit right as your opponent is attempting a hit, it results in a Counter, which causes 125% damage.

- **COUNTER STRIKE**: You landed a strike as your opponent was attempting to strike or side step. These have a high chance of causing a Critical Stun.
- **COUNTER THROW**: You did a throw as your opponent was attempting a throw.
- **COUNTER HOLD**: You countered a strike with a hold.

HI COUNTER

In certain cases a Counter can become a Hi Counter, which causes 150% damage.

- **HI COUNTER STRIKE**: You landed a strike as your opponent attempted a throw.
- **HI COUNTER THROW**: You did a throw as your opponent attempted a hold.
- **HI COUNTER HOLD**: You held your opponent’s strike just as it was about to hit.

CLIFFHANGER

When an opponent is hanging off a ledge during a Cliffhanger, the attacking player can choose to either strike \(P/K/T\) or throw \(T\). The defending opponent can either guard \(H\) or do a throw escape \(T\).

- Strikes beat throw escapes, and throws beat guards. If the attacking player wins, it causes extra damage. If the defending player wins, the character can drop down without taking too much damage.
POWER BLOW  *Command varies for each character.

Deliver a Power Blow when your health falls below 50% for high damage. Push the directional pad or left stick just before the Power Blow hits to decide in which direction to knock your opponent. In certain stages, you can knock opponents into Special Danger Zones for even greater damage. Players are limited to only one successful Power Blow or Power Launcher per round.

POWER LAUNCHER  *Command varies for each character.

Do a Power Launcher when your health falls below 50% to knock your opponent high into the air, causing high damage and giving you the chance to perform combos. Players are limited to only one successful Power Blow or Power Launcher per round.

Tag Power Blow

When both characters are below 50% health in a tag match, press (H + C + R) during a Power Blow to deliver a Tag Power Blow. These are even more powerful than regular Power Blows.

Saving Replays

To save a replay, select "Save Replay" in the menu that displays after the fight. Replays can be viewed in Extras > Spectator > Fight Viewer. Press X at any time during a replay to switch to camera mode. The entire replay may not be saved if there is not enough free space on your Xbox 360. If controller settings are changed during a fight, the replay will only be saved until that point.
Tag Matches allow up to 4 players to participate in 2-on-2 fights.

**TAG**

Press \( \text{H} + \text{P} + \text{K} \) to switch characters in and out of the fight. The character that is tagged out will slowly recover health. When an opponent is down, press \( \text{H} + \text{P} + \text{K} \) to switch characters and do a ground attack (Ground Attack Tag). You can also press \( \text{H} + \text{P} + \text{K} \) to switch characters and hit your opponent with a Critical Burst move (Burst Tag).

**QUICK TAG**

If you switch characters mid-combo at just the right time, the new character will be tagged in more quickly than usual and continue the combo. Keep the combos going and don’t give your opponent the chance to tag out!

**TAG THROW**

The type of tag throw will depend on the character combination. Certain pairs also have unique tag throws.

**FORCE OUT**

Switch characters and knock the opponent out of the screen, forcing the opponent to switch characters as well. The forced-out character will lose health and will temporarily be unable to tag in.
GRADE POINTS & CP

A player’s Grade shows how strong the player is. All players start at LR and rank up or down as they win and lose Grade Points in Ranked Matches. The higher an opponent’s Grade is, the more Grade Points you can win by defeating them. Character Points (CP) indicate how strong a player is with a certain character, and are also won and lost in Ranked Matches.

PRIZE FIGHTERS

Players who reach certain numbers of consecutive wins in Ranked Matches are given the rank of Bronze Fighter, Silver Fighter, Gold Fighter, or Platinum Fighter. Beating these players results in bonus Grade Points. These fighters can also earn bonus points for continuing their winning streak.

THROWDOWNS

Set "Throwdowns" to "Accept" to automatically search for an opponent as you play in Versus, Arcade, and Free Training modes. An icon will display at the bottom of the screen when an opponent is found. Press BACK to accept the Throwdown Challenge. Fight results will affect your Grade.

RANKED MATCH

Search for opponents by Grade. Ranked Match outcomes affect your Grade. You can play in either solo or tag mode.
**LOBBY MATCH**

Set various rules and fight with up to 16 players.

**FINDING OPPONENTS**
Search for opponents based on region, Grade, fight rules, type of match (solo/tag), and number of rounds.

**CREATING A LOBBY**
Decide the number of rounds, opponent Grade, fight rules, type of match, time limit, maximum health, number of players, etc. and wait for players to join your lobby.
