# INTRODUCTION

## WEAPONS

### EQUIPPING WEAPONS

You can carry one two-handed and two one-handed weapons at the same time.

Use **O** to switch between weapons.

Swap your equipped weapon for a new one by standing over the weapon you want to pick up and then tap **Y** to equip weapon to primary slot or hold **Y** to equip weapon to secondary slot.

### USING WEAPONS

Use **R1** to fire your equipped weapon. When dual-wielding, **R1** fires your primary weapon and **L1** fires your secondary weapon. You can dual-wield any combination of one-handed weapons.

### AIMING SYSTEM

When the crosshair is moved in the vicinity of an enemy target, the target is surrounded by an Aiming Reticule and any shots fired will be aimed at that target.

The margins of the Aiming Reticule indicate your accuracy. The closer the margins are to the middle, the more accurate your weapon will be.

Shooting at specific points on targets, for example arms and legs, requires precision targeting with the crosshair itself. When the crosshair is placed over the target, the Aiming Reticule will connect to it, indicating precision targeting.

Use **R1** (click) to go into aiming mode to increase accuracy.

## EXPLOSIVES

### EQUIPPING EXPLOSIVES

You can carry two different types of explosives: Grenades and C4 Triggered Explosives. Use **O** to switch between the different explosives.

### USING EXPLOSIVES

Use **L1** to throw explosives. Each type of explosive detonates differently:

Grenades detonate automatically. Hold **L1** to cook-off a grenade before throwing it.

C-4 is detonated by remote trigger. Press and hold **L1** after throwing the C-4 to detonate it.

## COMBAT TIPS

- Constantly moving and using your evasive roll will lower the accuracy of your enemies.
- Hide behind cover to regain your strength when injured.
- Manually aiming with the crosshair is much more precise than just relying on the auto-lock of the Aiming Reticule.

## BLACK MARKET BEACON

Use the Beacon to call on the Black Market supplier who can equip you with weapons and vehicles as well as extract you to a previously discovered location.

Beacons bring up the Black Market menu when thrown. They must be placed in a suitable location to allow for heavy drops.

## GRAPPLING HOOK

 Rico's signature Grappling Hook is fired with **L1**. The crosshair will indicate when a target is in range of the grappling hook.

## REEL IN / PULL

When the Grappling Hook is attached to a fixed surface, you are automatically reeled in. When the Grappling Hook is attached to a movable object it will pull it towards you.

## DUAL-HOOK

The Grappling Hook wire can be attached to two separate targets. This maneuver is called Dual-Hooking. It can be used to stop enemy vehicles dead in their tracks, to drag enemies behind vehicles, throw enemies around, and much more.

To Dual-Hook, press and hold **L1** to attach the first end of the wire to a target, then aim at another target and release **L1** to attach the second end of the wire.

# STUNTS

## STUNT JUMP

Press **B** to Stunt Jump to vehicles. An icon will appear over vehicles when they are within range of a Stunt Jump.

## VEHICLE STUNTS

Vehicle Stunts can be performed on certain types of vehicles. Use **•** to move around on these vehicles, or to lean whilst clinging to the front or rear of a vehicle.

## SPECIAL STUNTS

### THE SLINGSHOT

Open your Parachute while reeling in with your Grappling Hook to get airborne quickly

### AIR SLINGSHOT

Fire your Grappling Hook at a solid surface while parachuting to "slingshot" your way around the environment. The elasticity of the wire acts like a bungee cord, pulling you in the direction of the tethered surface.

### GRAPPLING TO VEHICLES

You can attach your Grappling Hook to vehicles to automatically get to a stunt position when reeled in.

## HIJACKING

### HIJACKING VEHICLES

When trying to enter an already occupied civilian vehicle by pressing **Y**, you will throw the driver out and commandeer the vehicle.

### HIJACK STRUGGLE

If the driver of a vehicle is a soldier or other type of enemy, he will put up a struggle when you attempt to hijack his vehicle. Follow the on-screen button prompts to throw the enemy out and gain control of the vehicle.

When there is more than one enemy in a vehicle, hijacking is not possible until all hostiles are removed from the vehicle.

### HIJACKING TIPS

- You can fire either of your one-handed weapons while clinging to vehicles. Use this to take out any hostiles in vehicles you want to hijack.
- When on the roof of a vehicle you can use all of your weapons and explosives

# PANAU

## THE FACTIONS

There are three criminal factions in Panau that all strive to lead a revolution and take control of the nation for themselves. Forming an allegiance with these factions and playing them against the government is crucial to your success on the island. The three factions and their leaders are:

### ROACHES

#### Leader: Razak Razman

Once in bed with the governing Panay family, the Roaches have long been the island's most feared organized crime syndicate. Rooted deep in every town and city they have a loyal hierarchy and are highly organized.

### REAPERS

#### Leader: Bolo Santos

Since the 1930's the Reapers have been a thorn in the side of the Panauan government. Based in the agricultural flatlands which sprawl across the island, these Maoist villagers have long preached revolution.

### ULAR BOYS

#### Leader: Sri Irawan

Much of the island of Panau is rain forest, and the inhabitants of this forest area have long claimed the right to independent rule. The many disparate tribal groups have in recent years come together to form one terrifying and volatile, even blood-thirsty, force known as the Ular Boys.

# **CHAOS**

Chaos is a resource necessary to complete your mission on the island. You can cause Chaos in several ways:

## **AGENCY MISSIONS**

Agency Missions are missions that advance the main story of the game. They are made available by causing Chaos in Panau, and completing missions for the different factions. Once Agency Missions are completed, new Strongholds are made available for takeover, creating opportunities for new activities and more Chaos – which in turn will help you unlock further Agency Missions.

## **STRONGHOLD TAKEOVERS**

Strongholds are centers of power belonging to the different factions of Panau. Most Strongholds in Panau are under government control when you first reach the island. As you progress through the game the factions you work with will grow stronger and want to take these Strongholds for themselves. Targeted Strongholds are marked out on your map. Once you've helped in taking them over, an Area of Influence will appear around that Stronghold.

## **AREA OF INFLUENCE**

Each faction's Area of Influence expands as Chaos increases in Panau. When the Area of Influence covers the location of an activity on the map, that activity is made visible to you in the form of an icon. Some activities are only available when the Area of Influence covers them, so be sure to seize every opportunity to cause Chaos.

## **FACTION MISSIONS**

Faction Missions are handed out by the leaders of the different factions. Faction missions can be located using the map. Detailed mission information can be viewed in the mission's Intelligence File, accessible through the PDA.

## **SETTLEMENTS AND INSTALLATIONS**

Panau is filled with government controlled settlements and installations, and each is filled with opportunities to cause Chaos. Destroy all government property and find all collectables in order to score 100% completion for that particular settlement or installation.

## **OTHER ACTIVITIES**

Other activities to cause Chaos and earn money include Military Colonels that can be assassinated, objects that can be acquired for the criminal factions and much more.

## **RACE CHALLENGES**

You will find illegal Race Challenges, that you can take part in, all over the island. By completing these Race Challenges, you can earn money to purchase things in the Black Market.
